Eminent Freedom Fighters of Punjab

In a revised edition of his original book, J. S. Grewal brings the history of the Sikhs from its beginnings in the time of Guru Nanak, the founder of Sikhism, right up to the present day. Against the background of the history of the Punjab, the volume surveys the changing pattern of human settlements in the region until the fifteenth century and the emergence of the Punjabi language as the basis of regional articulation. Subsequent chapters explore the life and beliefs of Guru Nanak, the development of his ideas by his successors and the growth of his following. The book offers a comprehensive statement on one of the largest and most important communities in India today.

The International Bibliography of Sikh Studies brings together all books, composite works, journal articles, conference proceedings, theses, dissertations, project reports, and electronic resources produced in the field of Sikh Studies until June 2004, making it the most complete and up-to-date reference work in the field today. The Sikhs of the Punjab

There is a historiographical silence about the role of the Punjab during the War of Independence. Historians have generally employed the elite approach or the 'top-down approach' while writing the history of the war. Since the elite, including the rajas, feudal lords, and nawabs had collaborated with the British, historians generalized their participation to that of the entire population of the province. A top-down approach inevitably emphasizes the role of the elite and neglects the role of the masses. So the role and response of the people of the Punjab during the War of Independence 1857-8 requires a thorough re-appraisal, which this book intends on doing. The central argument of this study is that resistance to the British in the Punjab during 1857-8 has been under-emphasized in historical works and the role of the common people or the masses in the Punjab, who resisted the Raj, has not been adequately highlighted in the historiography of the colonial era. Therefore, the present study is an attempt to bring the role of the Punjabi masses to the forefront, along with that of the elite, in order to present a complete picture of the role of the Punjab in War of Independence. This book also helps in understanding the role of the landed elite in contemporary politics of Pakistan, especially in the Punjab and NWFP (now Khyber Pakhtunkhwa, as it was a part of the Punjab in 1857) because the families who collaborated with the British during the war, are still playing an important role in the politics of Pakistan.

Who's Who: Punjab Freedom Fighters

Contrary to popular opinion, there is more to Sikhism than the distinctive dress. First of all, there is the emergence of Guru Nanak, the founder of Sikhism, and the long line of his successors. There are the precepts, many related to liberation through the divine name or nam. There is a particularly turbulent history in which the Sikhs have fought to affirm their beliefs and resist external domination that continues to this day. There is also, more recently, the dispersion from the Punjab throughout the rest of India and on to Europe and the Americas. With this emigration Sikhism has become considerably less exotic, but hardly better known to outsiders. This reference is an excellent place to learn more about the religion. It provides a chronology of events, a brief introduction that gives a general overview of the religion, and a dictionary with several hundred entries, which present the gurus and other leaders, trace the rather complex history, expound some of the precepts and concepts, describe many of the rites and rituals, and explain the meaning of

numerous related expressions. All this, along with a bibliography, provides readers with an informative and accessible guide toward understanding Sikhism.

First published in 1986, Sikh Separatism is a comprehensive study of the emergence of Sikh unrest in India. The appearance of Sikh fundamentalism and separatism is not a sudden development. They are both shown to have deep social and historical roots linked to the growth of contemporary Sikh identity, community and organization. The genesis of Sikh communal consciousness and organization lies in a social and religious reform movement among Sikhs from the 1870s to the 1920s. This movement is believed to have moulded Sikh perceptions of their political interests and resulted in the establishment of an institutional framework which has served as an arena and a base for Sikh separatism. The development of this reform movement and its motivations, the strategies and tactics employed by the reformers and its profound political implications are examined. This book will be of interest to students of political science, international relations, and South Asian studies.

Traditionally, history has been telling us the stories of kings. In the long tradition of history writing, his-story has always dominated over her-story. Though queens evoke a sense of romance and their stories are told like fairy tales, it is common enough to find that these stories end in tragedy. In India's history, not all queens are remembered today. Some are celebrated; while others have been almost ignored by historians. In *Ranis and the Raj*, Queeny Pradhan has selected six queens. All the six queens are from the nineteenth century and have faced the British Raj, the East India Company and the Crown. From the Rani of Sirmur, who was the earliest to deal with the British authorities, to Rani Chennamma, Rani Jindan, Begum Zeenat Mahal, Rani Lakshmi Bai, to the Sikkim Queen from the 1860s to 1890s, Pradhan has attempted to carve an engrossing historical narrative for each of these important figures in Indian history. Unlike the biographical convention in traditional history writing, the research in this book can be placed in the realm of 'microhistory'. The life stories of these queens are fragmented due to the 'silences' and 'invisibilization' in political history of the time, and this book aims to fill these gaps.

"Revisiting History of India & Beyond" have highlighted all the relevant issues of India's history and culture is dynamic, spanning back to the beginning of human civilization. It began with a mysterious culture along the Indus River and in farming communities in the southern lands of India. The history of India is punctuated by constant integration of migrating people with the diverse cultures that surround India. Available evidence suggests that the use of iron, copper and other metals was widely prevalent in the Indian sub-continent at a fairly early period, which is indicative of the progress that this part of the world had made by the end of the fourth millennium BC, India had emerged as a region of highly developed civilization. We hope that this book will be able to satisfy the general reader of History.

'Knit India Through Literature...' is a mega literary project, first of its kind in Indian literature, is the result of the penance-yagna done for 16 years by Sivasankari, noted Tamil writer. 'Knit India Through Literature' has involved intense sourcing, research and translation of literature from 18 Indian languages. The project she says aims to introduce Indians to other Indians through literature and culture and help knit them together. The interviews of stalwart writers from all 18 languages approved by the eighth schedule of Indian Constitution, accompanied by a creative work of the respective writer are published with her travelogues of different regions, along with an in-depth article by a scholar on the cultural and literary heritage of each of the language, in four volumes - South, East, West and North respectively. Her travelogues, her interviews and the overview of each literature she has sought, all reveal one important unity... the concern our writers and poets express in their works for the problems that beset our country today. Through her project Sivasankari feels writers can make an invaluable contribution with their writings to change the thinking of the people and help eliminate those problems. In this volume she deals with Punjabi one of the languages spoken in northern region of India.
